

# Health and Life Sciences Cluster

From the supply of medical equipment, consumables or pharmaceuticals to consultancy services, we have kept assisting hospitals, medical laboratories and farms in meeting their respective medical, diagnostic and veterinary requirements.

The Health and Life Sciences Cluster is organised into 6 legal entities and 6 specialised departments spread over 4 countries (Mauritius, Madagascar, Rwanda and Comoros) with a total workforce of 115 employees.

### Consultancy Services

By pooling expertise and experience, we aim to support health projects all over Africa. Our consultancy services cover every aspect of these projects, from conception all the way through to the opening of the facility and beyond. We provide support both in terms of building the project and planning, buying, installing and testing of the equipment to be used at the facility. We offer consultancy services in several fields such as medical, diagnostic, laboratory or research equipment. Our department of health standards provides assistance regarding the establishment of a quality assurance system, customer care services and applications required to acquire international accreditation. In our never-ending commitment to excellence and innovation, we are also currently introducing both patient and environmentally-friendly hospital systems as part of our "small hospital, big idea" program.

### Medical Diagnostic Laboratory Supply

We have distinguished ourselves in the Diagnostics market by supplying products to the fields of microbiology, haematology, immunology, serology, veterinary and general laboratory practice.

The Laboratory Science division is dedicated towards providing its expertise and products to private pathology laboratories, blood transfusion services, Universities and Medical School research laboratories, veterinary laboratories, pharmacies and industrial and food laboratories.

### Pharmaceutical Products

From representing a few international laboratories, we have succeeded in building ourselves into a strong organisation.

We cover the needs of the medical and pharmaceutical customer base by providing total healthcare solutions and by linking these with efficient logistics, so as to deliver the adequate service with promptness and accuracy.

Our pharmaceutical products range from vitamins, antibiotics, nutrients, analgesic, antiviral and ophthalmic to cardiovascular supplies as per different formulations (powder, syrup, injections or tablets).

### Medical Equipment Supply

The Medical Equipment division can equip nearly all departments of a hospital from the operating theatre to the sterilisation unit, imaging centre, maternity, emergency unit, cardiac unit, mortuary unit and incinerator. During the past years, we have been involved in many projects in the medical field, namely regarding the installation of equipment in public hospitals and private clinics locally. We have hence installed more than 70% of the medical equipment requirements at Apollo Bramwell Hospital in Mauritius.

### Medical Consumables

The Medical Consumables department supplies all the products which are used by medical professionals. The products that we supply range from the simple cotton gauze to specific consumables like catheters, hearing aids, syringes, gloves, rehabilitation aids, colostomy pouches, condoms, etc.

### Cardiology Products Supplies

The Cardiology department is designed to be a one-stop shop for cardiology services. This is a highly technical division which really puts us in the frontline with our up-to-date products. Working with world-leading medical equipment suppliers, we propose high quality products to meet the high standards required in cardiac services such as angiography, angioplasty, vascular procedures and all consumables.

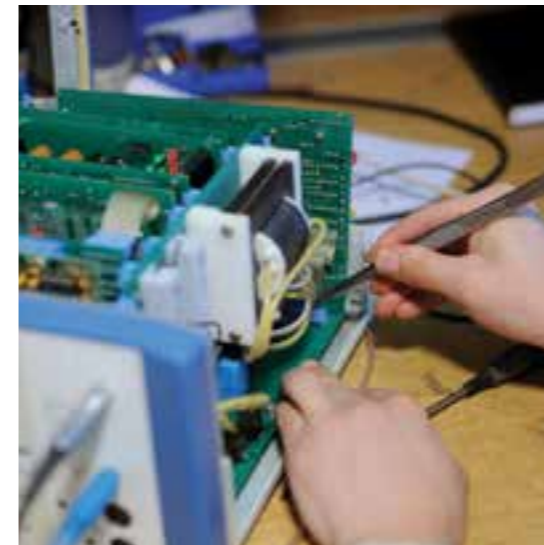

### Veterinary Products Supply

With decades of veterinary experience and a dynamic team, we position ourselves as a leading supplier of veterinary products in Mauritius.

Our range of products is as follows:

- Chicks: antiparasites drugs, vaccines, vitamins, antibiotics and minerals
- Horses: vitamins, antiparasitic drugs, anti stress drugs and electrolytes
- Pigs: antidiarrhoea, vitamins, minerals
- Dogs & cats: vaccines, vitamins, antiparasitic drugs, shampoos
- Cattle, goats, primates and sheep: antiparasitic drugs, antibiotics, mineral and vitamins

### Service Centre

With our motto being “We only sell what we can service”, the department was set up in 1987 to ensure the installation and maintenance of all medical and laboratory equipment supplied as well as appropriate training to use same.

### Companies involved in our Health and Life Sciences Cluster

- **Ducray Lenoir Ltd** (*Mauritius*)
- **Ducray Lenoir International Ltd** (*Seychelles*)
- **Medlife Science Ltd** (*Mauritius*)
- **Medical International SARL Ltd** (*Madagascar*)
- **M.H.E.P. SARL** (*Madagascar*)
- **Fortek Ltd** (*Rwanda*)

### Countries where our Health and Life Sciences Cluster exports its expertise

- Burundi**
- Comoros**
- Ethiopia**
- Eritrea**
- Ivory Coast**
- Madagascar**
- Mozambique**
- Republic of South Sudan**
- Rwanda**
- Seychelles**
- Tanzania**
- Uganda**

# Products Index

#### Diagnostics Imaging

- MRI
- CT scanners
- Angiography machine
- Chest x-ray
- Mobile x-ray
- Ultrasound machines
- ECG

#### Diagnostics Examinations

- Otoscope
- Ophthalmoscope
- Laryngoscope
- Stethoscope

#### Diagnostic Laboratory

- Equipment and consumables for biochemistry haematology, virology, histology, microbiology blood tests
- Rapid test kits
- Disposable syringes, plastic wares

#### Operating Theatre

- Operating table, operating light, pendant
- Anaesthesia machines, ventilator
- C arm
- Patient monitors
- Defibrillators
- Endoscopic equipment
- Diathermy machines
- Surgical instruments (orthopaedic, cardiology, dental, maternity)
- Sterilisers

#### General products

- Hospital furniture (beds, bed head unit, trolleys)
- Incinerators
- Hearing aids
- Rehabilitation aids
- Home healthcare products
- Wound care & bandage
- Pharmaceutical supplies

#### Veterinary Products

- Vaccines
- Pharmaceuticals
- Heartworm prevention
- Equine
- Nutritional products
- Shampoo
- Wound care & bandage, surgical instruments
- Portable x-ray & ultrasound machine
